## MSWhse December 2024 Fix

In addition to numerous behind-the-scenes updates, the following fix is in this release.

### Administration > Accounts & Permissions

**Kitting Permissions are viewable and editable within Roles & Permissions.**

“Customer Kits” was not listing under Roles & Permissions; however, with this fix, it is available.

As a reminder, the Permission Levels are as follows:

- None:** Users in the Role cannot view the functionality.
- Read:** Users in the Role have a “read only” ability with the functionality.
- Full:** Users in the Role can view, use, and edit the functionality.

If needed, those with the appropriate permission can edit the Permission Level by simply clicking on the level option is needed. Click Save to save the new setting.

The screenshot displays the 'Accounts & Permissions' page. The breadcrumb trail is 'Administration > Accounts & Permissions'. There are two tabs: 'Accounts' and 'Roles & Permissions', with the latter being active. Under 'Accounts', there are radio buttons for 'Warehouse' (selected) and 'CFW', and a dropdown menu for 'Warehouse Manager'. A blue button labeled '+ Add Role' is visible. Below this is a table with columns 'Permission' and 'Level'. The 'Customer' category is expanded, showing several permissions. The 'Customer Kits' row is highlighted with an orange border, and its 'Full' permission level is selected.

| Permission                           | Level   |
